

## Family Talk – Serving

### READ TOGETHER

---

#### 1 Samuel 16:1-13

1. Compare the physical characteristics of King Saul (1 Samuel 9:2) and David (1 Samuel 16:11-12)?
2. What is the most important quality of David, the shepherd boy? (1 Samuel 16:7,13)

### LIVE IT

---

Samuel was told to go and anoint the new king of Israel. The boy David seemed to be a very different man than Saul. God's measuring stick is different than the world's. The world values power and independence, but God values weakness and dependence. The world values size and strength, but God values posture and heart.

David was not only a new king, but an entirely different king. Take some time to share with your family the difference between the world's value system and God's. What are some ways your family prioritizes God's value system?

### LEAN ON GOD

---

Dear God,

Thank You for showing us a new type of king in this passage. We give our hearts to You. Give us strength as we depend on You to lead us.

We love You.

Amen.
